

Since Native American gaming became a reality for our tribe, we have begun to realize our dream of economic self-sufficiency. The revenues we earn from our Colusa Casino Resort are used to support vital government programs, infrastructure projects, and economic development for the benefit of our tribal members and community. From improved health care to increased educational opportunities for our tribal members and descendants, the lives of our tribal members have been greatly enhanced.

Originally, Colusa Casino Resort opened as Colusa Bingo in 1986 as a 1,200 seat high-stakes bingo hall. The first 80 slot machines were introduced in 1992. In 2004 we undertook our largest and most impressive expansion project to date. Expansion includes the addition of a hotel, additional casino floor space to accommodate slot machines table games, and increased restaurant space which is home to a 24-hour restaurant, Wintun Steakhouse, and the newly remodeled Jack's Lounge.

As with many gaming tribes, Colusa Casino Resort has been a proven profit center for the Colusa Indian Community Council. With Casino seed money, the Colusa Indian Community Council has embarked on various endeavors in an effort to ensure the tribe's future growth and financial prosperity. Some of those efforts include: The Colusa Indian Health Center, Wellness Center, and Hand-in-Hand daycare facility - all of which are open to the public. Our portfolio also includes the purchase and development of agricultural lands, as this is an integral part of our diversification plan. Incorporated into some of these lands is our hunt club – Outdoor

Adventures.
